Circuit Description

FM: 87-108MHZ

- ◆ Specification Instructions
- ※ USB Charging input voltage: 5V [500MA current].
- Speaker Specifications (ø40MM unit / 40hms / 3.5W bandwidth; [90HZ-20KHZ] sensitivity; 1K (85dB))
- ※ Speakers rated power output 3W
- ※ Lithium battery capacity; 3.7V/300MA; maximum power play time: approximately
- Maximum Power Distortion: 7%
- ※ Signal-to-noise ratio: 90HZ-20K/65dB
- * Built-in [3.5MM pin] audio input line.

controlagreement

- Support phone Bluetooth hands-free function
- * Embedded Kalimba DSP data processor, to complete a variety of digital speech processing. Noise elimination circuit.
- Bluetooth work for the global universal of the 2.4GHz ISM, the band of the (2.4000GHZ 2.480GHZ)
- * the wireless effective transmission distance up to within 10 meters
- * Operating Temperature: -10----40 degrees
